*Dear Colleague,*

We are pleased to introduce the lineup of full day speakers for the FCDC 2017-2018 season. This year's speakers are the best of the best!

**- The Team of Fairfield County Dental Club**

Approved PACE Program Provider  
FAGD/MAGD Credit  
Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement  
10/1/2016 to 9/30/2020  
Provider ID# 216393

**October 6, 2017**

**Pascal Magne, DMD**

## **"Bonded Restorations in the Anterior Dentition"**

Continuous developments in the field of adhesive restorative techniques have permitted significant broadening of the originally-defined spectrum of indications for BPRs in the anterior dentition and thus contribute to two of the major objectives of conservative restorative dentistry: the maximum preservation of sound tooth structure and the maintenance of the vitality of the teeth to be restored. Indications for BPRs are extending to more perilous situations (worn-down, nonvital or crown-fractured teeth), resulting in considerable improvements, comprising both the medical-biological aspect and the socio-economical context (ie, decrease of costs when compared to traditional and more invasive prosthetic treatments). From this perspective, indications, treatment planning, diagnostics, tooth preparation, laboratory procedures and adhesive luting procedures of BPRs will be carefully detailed.

**November 1, 2017**

**Multiple Case Presentation**

*Evening Seminar* •

## **"Comprehensive Treatment Planning Seminar"**

Dinner will be served followed by a lively two hour discussion of treatment planning. Five to ten participants will present cases to be treatment planned or show already completed cases. This will be followed by a spirited discussion of the therapeutic alternatives that exist - an excellent way to exchange ideas and to expand your knowledge base. This forum will also serve as a learning crucible for the difficult cases. Please note that you do not have to present cases to participate.

**December 1, 2017**

**Newton Cardoso, DDS**

## **"Excellence in Dental Aesthetics: A Consequence of Habits"**

Achieving excellence in aesthetic dentistry more than an artistic approach is a question of following a systematic methodology to reach predictable results: Proper Planning Prevents Poor Performance. This presentation shows how to Diagnose - Plan - Show - Share and Perform the best solutions from the simple to the most complex cases being conservative and effective! Micro preps - No preps when and why! The power of the mockup - How to make your patients say yes!

**Highlights:**

- The power of the mockup- direct-indirect -subtractive
- How to digitally design & sell your work
- Complex case solutions
- When and how to change VDO
- Most common mistakes – and how to solve them.

## "The Geometry of Beauty. Using CAD-CAM to Copy Natural Morphology Using Digital Workflow"

### Lecture:

From Digital to Clinical. Lecture on both analogic and digital workflow, DSD and treatment plan architecture. The science behind decision making, and the overall vision on aesthetic and digital dentistry. Smile design basics from a clinical approach. SKYN Concept - Design using natural morphology and enhance the CAD-CAM's ability to copy.

### Outline:

A digital era: putting everything into context. How the industries are digitalising?, Why is this happening?, How will this impact us?

March 9, 2018

William Robbins, DDS

## "Dentoalveolar Extrusion – The Most Difficult Patient in Dentistry"

### Topics:

Review of CORE Diagnosis Principles / Diagnosis of DAE / Interdisciplinary approach to DAE. 9 Treatment options for treating DAE / Case studies to illustrate treatment options.

### Learning Objectives

Upon completion of the course, the participant will be able:

- Diagnose dentoalveolar extrusion (DAE)
- Describe indications for functional crown lengthening as a treatment for DAE
- Describe indications for orthodontic intrusion as a treatment for DAE
- Discuss methods of dealing with inadequate space and excess space in the DAE patient
- Discuss determinants of vertical dimension
- Describe the six other less commonly used treatments for DAE.

April 13, 2018

Brian Mealey, DDS

## "The Connections Between Periodontal Health and Systemic Well-Being: What Do They Mean to My Practice?"

This lecture will review the links between periodontal/peri-implant inflammation and commonly encountered systemic conditions such as diabetes, cardiovascular diseases, and pregnancy. The purpose of this evidence-based discussion is to translate knowledge gleaned from medical and dental research into the everyday world of clinical dental practice.

### Learning Objectives

- Be familiar with the emerging concepts of periodontal and peri-implant diseases as they relate to other inflammatory diseases.
- Comprehend the influences of systemic conditions such as immune compromise and diabetes on periodontal/peri-implant health
- Know how inflammatory periodontal/peri-implant diseases may impact cardiovascular health, the clinical course of diabetes and pregnancy outcomes.
