Dear Colleague,

We are pleased to introduce the lineup of full day speakers for the FCDC 2018-2019 season.

Continuing the tradition of great education

The Fairfield County Dental Club is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 10/1/2016 to 9/30/2020. Provider ID# 216393

September 12, 2018

Multiple Case Presentation

Evening Seminar

"Comprehensive Treatment Planning Seminar"

Dinner will be served followed by a lively two-hour discussion of treatment planning. Five to ten participants will present cases to be treatment planned or show already completed cases. This will be followed by a spirited discussion of the therapeutic alternatives that exist - an excellent way to exchange ideas and to expand your knowledge base. This forum will also serve as a learning crucible for the difficult cases. Please note that you do not have to present cases to participate.

October 5, 2018

Brian Schroder, DDS

"Confessions of a Former Single Tooth Dentist"

This presentation is intended to inspire and encourage the members of the Study Club to fully incorporate the available resources acquired through their continuing education efforts into the treatment that they provide their patients. Dentistry is a difficult discipline. Excellence is not easily attained and change is something that we tend to avoid. Through documentation of long term patients, Dr. Schroder will candidly present his results as a solo, "I can do it all myself" practice style and the changes that came about in working with an "interdisciplinary team" approach. Should you choose to adopt them, these changes will benefit patients, general practitioners, specialist partners and office team members.

December 7, 2018

Amy Doneen, ARNP / Bradley Bale, MD

Team Event

"A Guarantee of Arterial Wellness: The Critical Role of Oral Health"

This course will elucidate essential elements for establishing and maintaining cardiovascular wellness. The dental profession is positioned to play a profound role in this regard. Oral health staff and providers will learn concurrent health issues and physical traits their patients may have which heighten CV risk. Attendees will be informed about the wisdom of utilizing technology to detect asymptomatic CV disease (CVD). This course will provide education regarding inflammation as the cause of CVD. A special focus will be directed toward oral health as a cause of arterial disease and potential trigger of CV events. The Bale/Doneen Method bridges the gap between medicine and dentistry to promote arterial wellness. Students of this course will be in position to enhance their own CV health as well as their patients.

TEAM EVENT
Bring your entire team!

Location
Trumbull Marriott

\$60 per team member

February 1, 2019

Terry Donovan, DDS

"Practical Pearls for Clinical Use" A Day with Terry Donovan

Learning Objectives:

After attending this presentation, participants will:

- Understand the differences in presenting signs of intrinsic and extrinsic erosion.
- Understand which ceramic systems work and where they should be used.
- Understand when and how NCCLs should be restored.
- Understand when direct pulp capping should be accomplished and what materials to use.
- Understand when to use an endodontic post and what type of post to use.
- Understand the important role silver diamine fluoride will play in the management of root caries.

April 17, 2019

Darrell Cain, CPA

Bonus Evening Lecture •

"Financial Decisions the Dentist Must Get Right:" Real-World Answers to Dentistry's Tough Financial Questions"

Learning Objectives:

- Determine how to minimize social security taxes, state and federal taxes
- Learn how practice ownership better positions you to accumulate and retain wealth
- Discover the advantages of saving in a tax-deferred environment
- Illuminate the impact setting realistic goals for your business has on your personal financial goals
- Identify the right way and the right time to acquire another office
- Discover the rewards of bringing an associate or partner into the practice when the time is right
- Learn the importance of having a vision when following a personal and business financial plan

May 10, 2019

Monish Bhola, DDS

“Strategies for Preventing Periodontal and Peri-implant Disease”

Dr. Bhola will review the diagnosis and management of periodontal and peri-implant diseases. Treatment modalities for the failing dentition both with and without teeth will be reviewed. When to treat and when to remove a failing implant will be discussed.

The afternoon presentation will focus on the Lip Stat technique. Dr. Bhola has refined and developed a procedure to reposition the lip to eliminate the gummy smile, thus avoiding the need for orthognathic surgery and Botox.
