**FCDC** 23  
S E A S O N  
Continuing education's best kept secret **24**

**Dear Colleague,**

We are pleased to introduce the lineup of Full Day and Evening Seminar Speakers for the FCDC 2023-2024 season. We strongly recommend that you reserve your membership spot now. We are anticipating a multitude of interest, and you will not want to miss this opportunity!

**-Michael Sonick, DMD and the Team of Fairfield County Dental Club.**

**SEPT  
22  
2023**

Full Day Seminar  
**Bill Robbins, DDS**  
**A 50 Year Retrospective**  
My Failures and Lessons Learned

This lecture will discuss a wide range dental topics in which I have experienced failures. I will use these failures to provide the lessons I have learned. These will include discussions about Biologic Width, Communication with Specialists, Communication with Patients, Implants In the Anterior Maxilla, Porcelain Veneers, Esthetic Crown Lengthening, Sleep Disordered Breathing, Dental Materials and Bonding Agents.

**OCT  
11  
2023**

Evening Seminar ◉  
**Multiple Case Presentation**  
**Comprehensive Treatment Planning Seminar**

Dinner will be served followed by a lively two-hour discussion of treatment planning. Five to ten participants will present cases to be treatment planned or show already completed cases. This will be followed by a spirited discussion of the therapeutic alternatives that exist – an excellent way to exchange ideas and expand your knowledge base. This forum will also serve as a learning crucible for difficult cases.

**Note that you do not have to present cases to participate.** If you want to share a case, please email us your presentation to: [fdcc@sonickdmd.com](mailto:fdcc@sonickdmd.com)

**NOV  
15  
2023**

Evening Seminar ◉  
**Matt Teich, DDS**  
**Prosthetic Principles for Successful Implant Treatment**

Successful implant dentistry is a collaborative approach focusing on the strengths of all specialties to achieve the end result of aesthetic prosthetics. Dr. Teich will discuss the principles to focus on prosthetically for all restorations from single units, temporization of single or multiple units and full arch immediate load. The collaborative approach with all specialties will simplify doing restorations and provide long term prosthetic success.

Full Day Seminar - Marriott Hotel Trumbull  
Team Building Day  
**Uche Odiatu, DMD**

**Work / Life - Calm Mind Fit Body Inspired Practice!**

Has your get up and go, got up and left? Are your clinic days fueled by caffeine? Are your patients wound up? This entertaining & informative program will inspire you to TAKE ACTION and reclaim your energy. The unrelenting pressure and stress from demanding clinical treatments, patient relations, and staff challenges can drain the reserves of the most well-intentioned individual. The consequences include poor sleep, overeating, accelerated aging, periodontal disease, lack of productivity, & feelings of overwhelm. This empowering session is uniquely crafted to balance and energize the lives of the dental team.

**JAN**  
**10**  
**2024**

Evening Seminar ◉  
**Black Talon - Gary Salman, CEO**  
**Cyber Security**

**What Every Dentist Needs to Know**

Day by day, cyber attacks and threats are increasing, so attackers are using more sophisticated methods to hack the computer systems. Cyber security is a very useful protection system for protecting computers, networks, servers, electronic systems, mobile devices, programs, and electronic systems from digital attacks. Generally, cyber attacks are aimed at accessing, destroying, or changing sensitive data by extorting money from operators or disrupting common business processes in dental practices.

**FEB**

**2024**

Evening Seminar  
**Steven Katz, DMD**

**A Blueprint for Practice Growth – Calibrating Diagnostic Criteria & Increasing Treatment Acceptance**

This presentation will highlight the most sure-fire ways to increase treatment acceptance of restorative treatment in any dental practice. First and foremost is to create a caring environment that is differentiated from other experiences the patient has had. Many practices fail to create clarity in their diagnostic criteria. This creates variance in how each clinician in the practice views restorative opportunities and it results in under diagnosis, and under treatment. This lecture will provide the tools to create a strong caring relationships as the foundation to provide a higher standard of care and the creation of high perceived value.

**12**  
**2024**

Full Day Seminar  
**Johnathan Esquivel, DDS**  
**A Biological Approach to Predictable**  
**Implant Dentistry**

There are many questions that we must ask ourselves before designing our final restoration. Everything begins with understanding the implant itself, then followed by a good implant position and an adequate provisionalization technique which will be the blueprint for the final restoration. Of course, the final restoration needs have the adequate material selection, polishing technique and a well-planned design. This course will provide you with clinical knowledge process to achieve esthetic, biologic and predictable outcomes!

**MAY**

**2024**

Evening Seminar ◉  
**Dean Vafiadis, DDS**  
**Facial Aesthetics - Changing Lives**

Over the past 10 years digital technologies have changed the way we treat our patients. Many of these techniques are helping the clinician capture digital data to be used in treatment planning and provisionalization and in final restorations. Understanding materials CAD/CAM technologies and various software's that are available will be discussed. Digital data acquisition and transfer are key components to the delivery of excellent dental treatment. Utilizing laboratory technicians who are an integral part of the fabrication of these treatments. This program will highlight the endless possibilities of the technology that is available.
